

Sep. 5<sup>th</sup> 2018  
Heat Pump & Thermal Storage Technology Center of Japan

## **7th AHPNW meeting will be held during 6th Sep. - 7th Sep. 2018 in Busan, Korea**

The wider promotion of the high efficiency heat pump and thermal storage technologies on the demand side is an urgent task in the aspect of promoting energy conservation and prevention of global warming. Especially in Asian country where the energy consumption is continuously growing due to the rapid economy growth, cooperation among each country is highly essential. In this point of view, 5 Main Asian countries (China, India, Japan, Korea, and Vietnam) gathered together on October 2011 and established Asian Heat Pump Thermal Storage Network (AHPNW), and AHPNW countries expand to 7 (Thailand, Korea, China, Japan, India, Vietnam and Indonesia) now.

7th conference, which title is "Go Green! Make a Clean Earth through Heat Pump Technology" will be held in Busan, Korea on Sep. 6th-7th, 2018, followed after the 6th conference in Tokyo . On Sep.6th open seminar will be held and On Sep.6th General meeting will be held by AHPNW members.

### Workshop in Busan

#### "Go Green! Make a Clean Earth through Heat Pump Technology"

Date: Thursday, 06 September 2018

Venue: Room 213, BEXCO, Busan, Republic of Korea

Organizer: Korea Testing Laboratory, KTL
